International Journal of Intelligent Information Technologies

EDITOR-IN-CHIEF: Vijayan Sugumaran, Ph.D. Oakland University, USA

- Publishes articles related to technical as well as managerial aspects of intelligent systems
- Helps readers stay abreast of the state-of-the-art developments in intelligent agent technologies
- Informs readers about how intelligent technologies are being utilized to solve business problems in various application domains
- An official publication of the Information Resources Management Association

Coverage:

- Intelligent information systems development using design science principles
- Models, architectures and behavior models for agent-oriented information systems
- Intelligent agent and multi-agent systems in various domains
- Intelligent information retrieval and business intelligence
- Semantic Web, Web services and ontologies
- Reasoning, learning and adaptive systems
- Agent-based auction, contracting, negotiation, and e-commerce
- Agent-based control and supply chain
- Manufacturing information systems
- Human-agent interaction and experimental evaluation
- Distributed intelligent systems and technologies
- Intelligent web mining and knowledge discovery systems
- Integrating business intelligence from internal and external sources
- Agent-based simulation and application integration
- Intelligent decision support systems
- Cooperative and collaborative systems
- Multimedia information processing
- Implementation, deployment, diffusion, and organizational impact

"The International Journal of Intelligent Information
Technologies is a much needed publication outlet for research on important and emerging issues in the design and deployment of intelligent systems! This new journal promises to fill an existing gap in the field and will promote interdisciplinary research."

Dr. Sudha Ram, Eller
 Professor of Management
 Information Systems,
 University of Arizona, USA

Associate Editors

- · Forouzan Golshani, Wright State University, USA
- · Alan R. Hevner, University of South Florida, USA
- · Kenneth Kendall, Rutgers University, USA
- · Stefan Kirn, Universität Hohenheim, Germany
- Och estara T. Marsh, Varidada ili Università della
- · Salvatore T. March, Vanderbilt University, USA
- Sudha Ram, University of Arizona, USA
- · Veda Storey, Georgia State University, USA
- · Vijay K. Vaishnavi, Georgia State University, USA

Editorial Review Board Members

- · Akhilesh Bajaj, University of Tulsa, USA
- · Ralph Bergmann, University of Trier, Germany
- · Kaushal Chari, University of South Florida, USA
- Roger Chiang, University of Cincinnati, USA
- Dursun Delen, Oklahoma State University, USA
- · Armin Heinzl, University of Mannheim, Germany
- · Dawn Jutla, St. Mary's University, Canada
- · Rajiv Kishore, SUNY at Buffalo, USA
- Christoph Schlueter Langdon, Univ. of Southern Calif., USA
- Zakaria Maamar, Zayed University, United Arab Emirates
- · Greg Madey, University of Notre Dame, USA
- · Deependra Moitra, Infosys Technologies Limited, India
- Karen Neville, University College Cork , Ireland
- Wee Keong Ng, Nanyang Technological Univ., Singapore
- · Palo Petta, Austrian Research Institute for AI, Austria
- · Ram Ramesh, SUNY at Buffalo, USA
- · Riyaz Sikora, University of Texas at Arlington, USA
- · Rahul Singh, The University of North Carolina, USA
- · David Taniar, Monash University, Australia
- · William Wagner, Villanova University, USA
- · Steven Walczak, University of Colorado at Denver, USA
- · Huaiqing Wang, City University of Hong Kong, Hong Kong
- · Kok Wai Wong, Mundoch University, Western Australia
- Carson Woo, University of British Columbia, Canada
- Victoria Yoon, Univ. of Maryland, Baltimore County, USA
- · Daniel Zeng, University of Arizona, USA

EDITOR-IN-CHIEF

Vijayan Sugumaran, Ph.D. Oakland University, USA

BIOGRAPHY

Vijayan Sugumaran is an Associate Professor of Management Information Systems in the department of Decision and Information Sciences at Oakland University, Rochester, Ml. Dr. Sugumaran received his B.Tech in Mining Engineering from the Indian School of Mines, M.S. in Mining Engineering from the University of Alaska - Fairbanks, and Ph.D. in Information Technology from George Mason University. His research interests are in the areas of intelligent agent and multi-agent systems, component based software development and reuse, ontologies, semantic Web and Web services, and Internet technologies. His most recent publications have appeared in Communications of the ACM, Healthcare Management Science, Data and Knowledge Engineering, The DATABASE for Advances in Information Systems, Information Systems Journal, Journal of Information Systems and E-Business, and Information Resources Management Journal. Besides editing IJIIT, Dr. Sugumaran serves on the editorial board of seven other journals. He is the chair of Intelligent Information Systems track for the Information Resources Management Association International Conference (IRMA 2001, 2002, 2005) and the Intelligent Agent and Multi-Agent Systems in Business mini-track for Americas Conference on Information Systems (AMCIS 1999-2005). He has also served as a program committee member for several national and international conferences.

The advent of the World Wide Web has sparked renewed interest in the area of intelligent information technologies. There is a growing interest in developing intelligent technologies that enable users to accomplish complex tasks in web-centric environments with relative ease. utilizing such technologies as intelligent agents, distributed computing in heterogeneous environments, and computer supported collaborative work. The **International Journal of** Intelligent Information Technologies (IJIIT) brings together researchers in related fields such as information systems, distributed AI, intelligent agents, and collaborative work, to explore and discuss various aspects of design and development of intelligent technologies. This journal provides a forum for academics and practitioners to explore research issues related to not only the design, implementation and deployment of intelligent

Submissions

Interested contributors are asked to submit their manuscripts as an email attachment. The publisher will publish the journal in both print and electronic formats. For more information on how to submit, go to www.idea-group.com/ijiit. All submissions and inquiries should be directed to the attention of: Dr. Vijayan Sugumaran Email: sugumara@oakland.edu.

systems and technologies, but

also economic issues and

organizational impact.

"Finally, software tools have caught up with theory. This enables researchers to create true value in practice by rigorously implementing the many promising methodologies on intelligent systems that have evolved over the last decades. The

International Journal of Intelligent Information

Technologies is at the center of this development, providing insights into how to do it right."

— Dr. Chris S. Langdon, USC Marshall School of Business, USA; Founding Co-Chair of the AIS Special Interest Group on Agent-Based Information Systems, SIGABIS
